Happy body for optimal health

Glutathione is an antioxidant that plays several vital roles in the body. Produced in the liver, glutathione neutralizes free radicals, enhances the immune system and detoxifies the body.

However, increasing exposure to environmental toxins, aging, unhealthy eating habits and a stressful lifestyle overloads the body's detoxification system, accelerate glutathione depletion, as well as inhibits the liver's ability to produce it. Hence, this delay the body's ability to self-heal and repair that may lead to health conditions.

A healthy intake of glutathione precursor food sources such as fruits and vegetables are important. Alternatively, supplementation with **NaturCare® Gluta HA** keeps glutathione at optimal levels for overall wellness. Not only that, the addition of Hyaluronic Acid (HA) helps lubricate and locks in moisture for plumper skin. Keep your body happy to live life with vitality and health!

Source of L-Glutathione (GSH) and Hyaluronic Acid (HA)

- ✓ This antioxidant binds to free radicals, toxins and heavy metals and rids them from the body
- ✓ "Master" antioxidant
- ✓ Aids in detoxification

- ✓ Hyaluronic Acid locks in moisture to provide cushioning and lubricating effect within skin outer layer (dermis)
- ✓ Improved moisture retention

Pucker Up!

Add the final touch to the perfect makeup with Nc Crayon Levres for irresistibly luscious lips.

1

Make 'Em Pop

Create more depth by applying the 3-shade eye shadow for brighter looking eyes.

2

Get that Definition

Apply two coats of mascara on top and bottom - focusing on the outer lashes with the top of the wand.

Tips: For a fuller brow, lightly fill in any gaps with a pencil and use a disposable mascara wand to brush up the hair.

3

Let Your Face Glow

Give your face a healthy pop of color by applying blush to the apples of your cheeks.

Hey kids!
Here are 3 reasons to use
Tupperware's Eco Bottle!

It is durable and stylish.

...and there's a bunch of colors to choose from! What's more you can personalize it your own way, making it a one-of-a-kind bottle.

Be more hydrated daily.

Having a bottle is a good way to track how much you've drank and how much more you need for your daily hydration.

Most of all, it's safe for you!

Made from safe, non-toxic, non-carcinogenic materials, you can ensure that Tupperware Eco Bottle does not release harmful chemicals into food and what you drink every day!
