Saves  
more lives

Saves  
the planet

Microplastics found in

# 93%

of bottled **water**

- Global study, 2017

## Health risks of microplastics

It could become carriers for  
**toxins** to enter the body.

It binds to pesticides, and chemicals,  
known to **cause cancer**.

# 85,000,000

PET bottles end up in garbage landfills.

This leaches toxic  
waste into the soil.

**This pollutes & endangers  
drinking water**

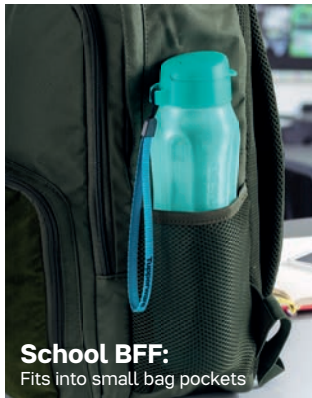

# My slim & cool partner for life!

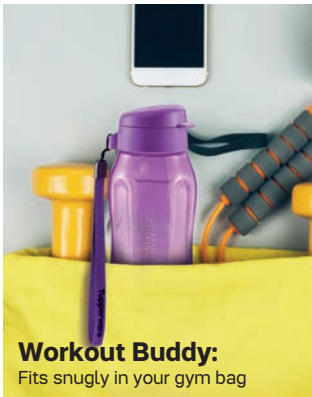

**Travel Companion:**  
Fits well in car drink holder

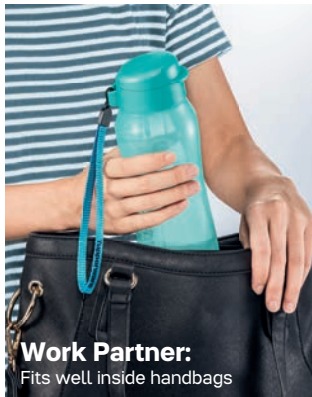

**Outdoor Mate:**  
Fitted with bottle strap

**School BFF:**  
Fits into small bag pockets

**Workout Buddy:**  
Fits snugly in your gym bag

**Work Partner:**  
Fits well inside handbags

## Why get a FreezerMate?

Meat frozen in FREEZERMATE stays fresh and juicy

- An airtight environment prevents oxidization and loss of moisture
- Temperature is constant within
- Taste, texture and juiciness of meat is maintained
- Fast freezing process

### Fresh freezer tips:

- Avoid putting hot food in the freezer
- Don't leave the door to the freezer open
- Always thaw food in the refrigerator
- Keep temperatures below freezing

Meat NOT stored in the right environment

- Loss of flavor and juiciness
- Freezer burns and icicles form
- Texture of meat is compromised
- Parched and dehydrated spots
- Oxidization cause discoloration

# Bring home market freshness.

**Exclusive Purchase**

4034 96

**Cooler Bag**

**\$8.90 NETT**

With every purchase  
of A2181

**Tupperware**

- Made to withstand temperatures as low as -4°F/-20°C
- Wall thinness allows for fast freezing
- Keeps temperature constant to prevent freezer burns
- A variety of sizes for all your needs
- Rounded corners and recessed bottoms allow air to circulate through

Flexible seal with tab for easy removal.

Filling up to the indicated fill line, allows sufficient room for expansion as food freezes.

Clear windows allow fast and easy identification.

**A special promo, NOT TO BE missed out!**  
For more information, please refer to page 37.

# Regain your youthful glow

**L-Gluthathione**, known as “the master antioxidant” – is the body’s important antioxidants. This detoxifier binds free radicals, toxins and heavy metals to flush them out of the body, protecting cells from oxidative stress that damage cell structures. It also blocks UV rays that trigger black pigmentation (melanin) formation – promoting cell renewal for a healthier complexion.

Along with Hyaluronic Acid that helps lubricate and locks in moisture for plumper skin, **NaturCare® Gluta HA** provides a proprietary combination of antioxidants and other natural ingredients in a holistic beauty system to **improve skin’s moisture levels whilst restoring clarity and luminosity**. Let that natural radiance shine through!

**Brighter, radiant skin**

**Improve pigmentation**

**Improve moisture retention**

# Energize your day with the goodness of pomegranate

Start with 2 per day to keep healthy!

Age is inevitable but aging is not. By supplementing your diet with the goodness of pomegranate, you certainly can slow down the process and avert the loss of flexibility, energy levels and stamina as you age.

Made up of the whole fruit: seeds, pulp, and peel, **NaturCare® Pomegranate FS** supercharges your health with antioxidant concentrate of at least 10 fresh pomegranates in 1 softgel, without the hassle of juicing. Start living a vibrant, active lifestyle with the goodness of pomegranate!

Dosage:  
2-4 softgels  
once or  
twice daily  
with meals.

For decades, Tupperware Brands has been synonymous with airtight containers that keep food fresh, for longer.

**Now Tupperware Brands help provides fresh food in space!**

Selama sedekad, Tupperware Brands telah menjadi sinonim dengan bekas kedap udara yang menyimpan makanan segar, dengan lebih lama.

**Kini, Tupperware Brands membantu dalam menghasilkan makanan segar di angkasa lepas!**

## EVER WONDERED WHAT ASTRONAUTS EAT IN SPACE?

Pernah bertanya, apakah yang astronawan makan di angkasa lepas?

Canned food everyday?  
Boring...

Makanan dalam tin, setiap hari? Membosankan...

Freeze dried food?  
Urgh...  
Makanan yang beku? Urgh...

### To plant food in space is not easy and it's time consuming.

Untuk menghasilkan tanaman di angkasa lepas adalah tidak mudah dan ia memakan masa.

This is why Tupperware Brands partnered together with NASA and Techshot to help develop a new way of watering plants in space.

Oleh sebab ini, Tupperware Brands bekerjasama dengan NASA dan Techshot untuk membantu dalam penghasilan baru sistem pengairan tanaman di angkasa lepas.

## TupperwareBrands

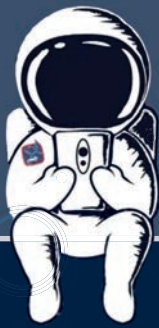

## techshot

## DO YOU KNOW?

Since 2015, NASA astronauts have supplemented their diet with fresh greens grown in space, but it's a challenge to keep them properly watered. As such, P.O.N.D.S (Passive Orbital Nutrient Delivery System) was developed, and Techshot reached out to Tupperware Brands to create a new plant watering system in space.

**Tupperware Brands applied its deep knowledge and success in design for manufacturability and food-safe construction materials** in the further development of P.O.N.D.S. It makes gardening easier through:

- **A self-watering system**  
Plants will have even water and oxygen distribution.
- **Eco-friendly**  
The device can be reused and replanted with more vegetables.
- **Less crew time**  
Astronaut need not monitor and water plants frequently.
- **Clear window & removable cover**  
Allow astronauts to observe root growth & water distribution.

# TAHUKAH ANDA?

Sejak 2015, angkasawan NASA telah menambah diet makanan mereka dengan makanan segar yang ditanam di angkasa lepas, namun untuk memastikan tanaman disiram dengan baik adalah sesuatu yang mencabar. Dengan itu, P.O.N.D.S (atau nama singkatan - Passive Orbital Nutrient Delivery System) telah dibangunkan, dan Techshot memilih Tupperware Brands bagi mencipta kaedah baru sistem pengairan di angkasa lepas.

**Tupperware Brands telah menggunakan kemahirannya yang tinggi dan kejayaan dalam reka-cipta perkilangan dan penciptaan bahan mesra makanan** bagi pembangunan P.O.N.D.S. Ini memudahkan proses tanaman dengan melalui cara:

- **Sistem pengairan sendiri**  
Tumbuhan akan mendapat pengedaran air dan oksigen yang serata.
- **Mesra Alam**  
Peralatan ini boleh diguna semula untuk penanaman sayur-sayuran semula.
- **Kurang bazir masa krew**  
Angkasawan tidak perlu sentiasa memantau atau menyiram tanaman.
- **Tetingkap jelas & penutup boleh tanggal**  
Membolehkan angkasawan memantau pertumbuhan akar dan pegedaran air.

P.O.N.D.S  
(Passive Orbital  
Nutrient Delivery System)

# What does it mean to you, as a consumer?
